

Southwestern Ohio Council for Higher Education

## 2010 SOCHE/GCCCU HIGHER EDUCATION CONFERENCE Second Call for Sessions

### Conference Description

The Higher Education Conference is an annual event co-presented by the Southwestern Ohio Council for Higher Education (SOCHE) and the Greater Cincinnati Consortium of Colleges and Universities (GCCCU). The 2010 conference is scheduled for March 26, 2010, Sinclair Community College, Dayton, Ohio. In general, this conference offers faculty, administrators, staff, and students an all day professional development opportunity in our region addressing vital topics in higher education.

The 2010 Higher Education Conference will focus on *innovations* in higher education, showcasing forward-thinking programs/initiatives/people that impact teaching and learning from colleges and universities across the region and state. This is an opportunity to share expertise, educational leadership and entrepreneurship, and thought-provoking, innovative campus programs. The conference has been designed to include as best practices and cutting-edge ideas with representatives from as many institutions as possible, with the ultimate goal of advancing higher education through collective sharing.

In addition, the conference will feature two panels of education leaders from across the state that will discuss *what is it that higher education is doing well* and *what can higher education do better*.

### Session Submission

The Higher Education Conference committee is requesting proposals from all areas of higher education that are paving new paths for campuses. This would include, but not be limited to: *teaching and learning, technology, diversity, globalization, student services, student engagement, community engagement, general education, faculty development, and assessment*, to name a few. Again, the content areas are not limited. However, we do stress that sessions will be selected based on their level of *innovation*. An institution can submit multiple proposals.

Poster Session Format. All accepted proposals would be set up as a poster session. This poster session approach will allow conference attendees the opportunity to visit with numerous people throughout the day, as well as give you the chance to learn about other programs. You will not be required to stand by your session all day because of the way in which the conference will be structure.

Concurrent Breakout Session. There will be approximately six proposals selected that will run twice as concurrent sessions in the afternoon, in addition to being included in the poster sessions. (If you are not selected for the breakout, this does not reflect the quality of your proposal.)

To submit a proposal, please complete the conference session form below. All submission will be considered for a poster and a breakout. **Submit your proposal via email to [soche@soche.org](mailto:soche@soche.org) February 1, 2010, 5:00 pm, for second consideration for a poster and breakout session.** Notification of acceptance is planned for mid-December. Information on the conference and registration will be made available in the New Year.

### Conference Registration

Conference registration will be available later in the academic year. We will be sure to notify you once registration is open. Participating presenters and co-presenters must pay the appropriate registration fees. The Higher Education Conferences is \$100 for SOCHE and GCCCU members. Fees and policies will be posted on the conference website. If you have any questions, please call SOCHE at (937) 258-8890, or email [soche@soche.org](mailto:soche@soche.org)
