

# 1. Cover Page

## *Purpose:*

Your cover page is the introduction to your portfolio. The cover page is to clearly state the following information

- a. Full name
- b. Major and licensure
- c. Home address
- d. Phone number
- e. E-mail address

## *Suggestions:*

Since this is the first impression someone will get of you and your professional credentials, use this opportunity to put your “best foot forward.” Give attention to your choice of font and paper selection. You may include a picture if desired. This page will set the tone for the rest of your portfolio.
