

## BIO 2500 / Fall, 2008 General Botany -- Cooperative Groups

NAME		BLIP Topic
Jenalee Elmore	1A	Effect of Gibberellic Acid Hormone on Growth of Dwarf Corn, <i>Zea mays</i>
Jacob Harstel		
Ben Kilian		
Erin Leffel	1B	Effect of Daylength on Growth of <i>Brassica</i> (Mustard) Plants
Brandon O'Keefe		
Anna Plasterer		
Stephen Pupillo		
Erica Richey	1C	Comparing Seed Banks of the Prairie Remnant and CU Prairie Restoration
Mary Slifka		
Doug Sponsler		
Mark Mofett	1D	Phenotypic Differences in Spike Morphology of <i>Setaria faberii</i> and <i>S glauca</i>
Daniel Suarez		
Emily Valji		
Nicole Brewin	2A	Response of Royal Catchfly to Environmental Changes in a Prairie Remnant
Abby Eisenlohr		
Andrew Piasecki		
Amber Ellett	2B	Plant Acclimation to Low Soil Moisture
Anna-Marie Kokx		
Daniel McFarlane		
Jennifer Lilly	2C	Time-of-Day Effect on Stomatal Aperture in a Selected Plant Species
Sharon Miller		
Andrew Vitaliti		
Jeffery Whitcomb II		
Thomas Bertagnoli	3A	Decreased Soil Moisture and Stomatal Opening in Soybean, <i>Glycine max</i>
Julianne Everswick		
Kristen Ferguson		
Heather Huffaker	3B	Is there a Verifiable Pattern in Vine Twining and What is the Mechanism?
Rachel Hurley		
Rebekah Jones		
Aubrey Siemon	3C	Light Intensity and Leaf Chlorophyll Content in Radish, <i>Raphanus sativus</i>
Christopher Vaughn		
Megan Welborn
