

Medical Request for Residence Hall Air Conditioning

All female residence halls are air conditioned. Although most male residence halls are air conditioned, any male student requiring an air conditioned room for medical reasons should **submit this form by June 1 for fall term or January 1 for spring term.**

To Be Completed by Student

Student Agreement:

I understand that a limited number of air-conditioned rooms and/or portable air conditioners are available in residence halls on The Hill (Marshall, Carr, Rogers, and Palmer Halls) and that they are assigned on the basis of both documented health needs and seniority. I further understand that the medical conditions described by my physician take precedence over my residence hall and/or roommate request. Therefore, I agree to accept the room assignment that accommodates my health needs.
