# **Communication Arts**

## Mission Statement

The Cedarville University Department of Communication Arts is a diverse community of communication professionals committed to educating students to change the world as they biblically engage their culture with the heart and mind of Christ. The department recognizes the importance of balancing the professional side of our discipline with a rigorous academic grounding. Contemporary issues and theories are evaluated and discussed in the perspective of Scripture. To achieve these goals, the department has set the following objectives. We seek:

1. To achieve excellence in communication skills and critical thinking.
2. To foster a desire for knowledge and an enthusiasm for creative expression.
3. To aid students in formulating problem-solving techniques in applied contexts.
4. To encourage the evaluation of performance-based communication as a reflection of culture.
5. To develop innovative leaders for positions in media, politics, business, and entertainment.

## Personal Requirements

Students planning to pursue a major in communication arts are best prepared by taking a college preparatory curriculum in high school. Successful students in the major are individuals with abilities in creative expression, critical thinking, problem-solving and interpersonal interaction.

## Department Requirements

All students in the department take Introduction to Communication Arts as the entry course in the major. Within each specific program of study, students complete classes in the history, theory, research, and ethics of their particular field of communication. Majors are required to complete a senior capstone project in research, production, internship, or performance to graduate. The nature of the project is determined by the emphasis area of the student.

## Technical Resources

The department provides state of the art audio and video equipment with which students learn the skills of the electronic media.

A new, modern theatre and accompanying equipment and facilities are available to theatre majors.

The computer network provides tools and resources for public speaking, debate, and forensics.

Journalism students learn news writing and design in a newly developed media lab. This facility also features print, broadcasting, and online media resources for classroom instruction and research.

## Electronic Media

The **electronic media major** prepares students for careers in a wide range of media – radio, television, non-broadcast audio/video production, and online and computer-based media. Because of the paraprofessional nature of this program and the balance of practical and theoretical aspects of media work, Cedarville graduates have excelled in careers across all of these media.

Through specifically designed courses, students have the opportunity to work in environments in which radio stations are streaming alternate music formats on the web, television is digital and interactive, and the Internet's broadband capacity provides video on demand. Students receive a broad perspective to prepare them to work in a rapidly changing media environment and will also select a concentration for specialization.

Course requirements involve 53 semester hours – 32 semester hours of core courses that provide the student with an overview of these media and develop skills in common with all of them and a 21-hour concentration. The concentrations provide specialized courses in audio production (radio and non-broadcast audio), video production (television and non-broadcast video), management/sales (covering the business side of the field), and interactive media (online and computer-based media).

Internships are strongly recommended but are dependent upon availability and placement.

## Theatre

The **theatre major** provides training in acting, directing, theatre design/technology, and theatre history/dramaturgy. The program allows the student to declare a concentration in either performance or design. A special emphasis is placed upon the challenges faced by the Christian in theatre and the use of drama in worship and Christian ministry.

In addition to studio and classroom instruction, students gain practical experience through working on department productions and serving on production teams. This practical experience work is supervised by the theatre technical staff and may include set construction, scenic painting, lighting, properties, costumes, and other projects.

While many theatre majors anticipate a career in theatre, other students may want to combine the theatre major with a specific minor to help prepare them for the diversity of theatre-related professions including Christian education, youth ministry, arts management, arts law, and arts education. The program culminates in a Senior Theatre Project designed to feature the student's level of expertise and assist the student in preparation for graduate school or the selected area for employment or ministry.
