

Admission to Cedarville University is test optional, and students are not required to submit test scores to be admitted to the University.

When test scores are submitted with an application to Cedarville, scores will be considered in the admission decision.

High school students seeking to take courses for dual credit may want to submit test scores at the time of application for the following reasons:

- To meet [College Credit Plus](#) eligibility requirements (Ohio students only)
- To meet Cedarville proficiency requirements for math or English courses
- To demonstrate readiness for academic coursework at Cedarville*

The following minimum test score guidelines are provided to help dual enrolled students assess college readiness.

Exam	Subtest	Ohio CCP Proficiency	Cedarville Proficiency
ACT	English	18	21
	Math	22	19
SAT	Reading/Writing	480	550
	Math	530	530
CLT	Combined Verbal/Grammar	--	52
	Quantitative	--	20
ACCUPLACER	Next Generation WritePlacer	5	6
	Next Generation Quantitative Algebra & Statistics	263	250
CLEP	College Composition	--	59

*The state of Ohio allows universities to establish relevant coursework to determine college readiness. Cedarville has determined that relevant coursework consists of completion of at least 0.5 high school credits in math, English, social studies *and* science with a grade of A or B in each subject. Students who have taken some high school coursework but do not meet this minimum will be required to provide proficient test scores for admission to the Dual Enrollment program.
