

Choose network providers for your lab tests

Starting May 15, 2010, in accordance with your benefit plan, UnitedHealthcare will pay claims for covered services from out-of-network laboratories at your out-of-network benefit level, even if your in-network doctor or other health care provider referred the service.

How does this affect you?

Using a laboratory outside the UnitedHealthcare network may cost you more out of your pocket and may limit your participation in health management programs, which help you and your doctor manage your specific health care needs. When your samples are sent to non-network laboratories, you will likely pay higher co-payments or coinsurance. Talk to your doctor's office if you are unsure where your lab samples are being sent.

Network laboratories save you money

You get the best value from your benefit plan and help to manage health insurance costs when you choose network laboratories.

- Your copayments may be higher when using an out-of-network laboratory.
- Your share of the bill, called coinsurance, may be higher when using an out-of-network laboratory.
- You may receive a bill from an out-of-network laboratory for the difference between your out-of-network benefit and the amount the out-of-network laboratory charges for the service. You should note that **network** laboratories will not "balance bill" you for covered services they provide.

Choose UnitedHealthcare network laboratory providers

You have the right to ask your doctor to send your lab samples to a network laboratory. Look on the opposite page for a partial list of network laboratory providers and how you can search myuhc.com[®] for more than 1,300 laboratory providers in our network. Don't run the risk of your laboratory work being referred out-of-network and potentially paying a higher cost. If your doctor uses a laboratory that is not included in the official myuhc.com laboratory directory, call customer care to confirm whether the laboratory is in our network.

Contact UnitedHealthcare with questions

If you have any questions, please visit myuhc.com or call a customer care professional at 1-800-859-3291.
