FIELD DIRECTORY

Agencies and Contacts

The primary purpose of this directory is to assist the students of the social work program at Cedarville University in the process of choosing an appropriate field experience. The students are required to interview at three separate agencies prior to making a final choice, which enables them to learn more about the various field placement opportunities available to them.

Junior and **senior** placements are marked accordingly. The agencies that are not marked indicate a placement that may be appropriate for either the senior or junior experience.

We endeavor to offer the best choices to our students, in order to stretch and mold them into Christian social workers who will strive to make a difference in the lives of people with whom they come in contact.

+ Denotes that it is a religious agency.

* Denotes that the Field Instructor is a Cedarville alum.

*****Information for agencies that are in italics is not updated (due to a non response from the agency.)*****

Mission Statement

The Cedarville University Social Work Program develops competent servant leaders grounded in biblical truth to practice generalist social work in diverse settings worldwide advancing human and community well-being.

Program Goals

The goals of the social work program are to prepare future professional social workers, who are competent in the areas of:

1. Serving and respecting diverse people groups and communities by treating all with dignity and respect while valuing all relationships.
2. Preventing conditions, which limit human rights, promoting social and economic justice worldwide, and working toward the elimination of poverty with the underpinning component of enhancing the quality of life for all people.
3. Practicing with competence and integrity using scientific inquiry and evidence based interventions.
4. Applying the person and the environment construct to practice, understanding the impact poverty can have on social functioning.
5. Ethically integrating faith and social work practice.

Program Objectives

Graduates of the Cedarville University Social Work Program will demonstrate a basic level of competency in the profession of social work by:

1. Integrating faith and practice through a process of ethical reasoning while respecting spiritual diversity.
2. Evaluating multiple sources of knowledge and applying strategies of ethical reasoning to integrate knowledge and practice.

3. Communicating effectively with diverse individuals, groups, communities, organizations and colleagues, being mindful of the importance of difference in shaping life experiences.
4. Assuring continual professional development by practicing reflection and self-correction and managing personal values in a way that allows professional values to guide practice
5. Assessing client strengths and needs using a bio-psycho-social-spiritual model and analyzing, formulating, and advocating for policies that advance social well-being, recognizing the extent to which a culture's structures and values may oppress, marginalize, alienate, or create or enhance privilege and power.

Program Outcomes

Graduates of Cedarville University Baccalaureate Social Work Program will be able to practice with the following competencies:

Professional Identity	Social workers advocate for client access to the services of social work;
	Social workers practice personal reflection and self-correction to assure continual professional development;
	Social workers attend to professional roles and boundaries;
	Social workers demonstrate professional demeanor in behavior, appearance, and communication;
	Social workers engage in career-long learning;
	Social workers use supervision and consultation.
Ethical Practice	Social workers recognize and manage personal values in a way that allows professional values to guide practice
	Social workers make ethical decisions by applying standards of the National Association of Social Workers Code of Ethics and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work Ethics in Social Work, Statement of Principles
	Social workers tolerate ambiguity in resolving ethical conflicts
	Social workers apply strategies of ethical reasoning to arrive at principled decisions
Critical Thinking	Social workers distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice wisdom
	Social workers analyze models of assessment, prevention, intervention, and evaluation
	Social workers demonstrate effective oral and written communication in working with individuals, families, groups, organizations, communities, and colleagues

Diversity in Practice	Social workers recognize the extent to which a culture's structures and values may oppress, marginalize, alienate, or create or enhance privilege and power
	Social workers gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups
	Social workers recognize and communicate their understanding of the importance of difference in shaping life experiences
	Social workers view themselves as learners and engage those with whom they work as informants
Human Rights & Justice	Social workers understand the forms and mechanisms of oppression and discrimination
	Social workers advocate for human rights and social and economic justice
	Social workers engage in practices that advance social and economic justice
Research Based Practice	Social workers use practice experience to inform scientific inquiry
	Social workers use research evidence to inform practice
Human Behavior	Social workers utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation
	Social workers critique and apply knowledge to understand person and environment.
Policy Practice	Social workers analyze, formulate, and advocate for policies that advance social well-being
	Social workers collaborate with colleagues and clients for effective policy action
Practice Contexts	Social workers continuously discover, appraise, and attend to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant services
	Social workers provide leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services
Engage, Assess, Intervene, Evaluate	Engagement
	Social workers substantively and effectively prepare for action with individuals, families, groups, organizations, and communities
	Social workers use empathy and other interpersonal skills
	Social workers develop a mutually agreed-on focus of work and desired outcomes
	Assessment
	Social workers collect, organize, and interpret client data
	Social workers assess client strengths and limitations
	Social workers develop mutually agreed-on intervention goals and objectives
	Social workers select appropriate intervention strategies
	Intervention
	Social workers initiate actions to achieve organizational goals
	Social workers implement prevention interventions that enhance client capacities
	Social workers help clients resolve problems
	Social workers negotiate, mediate, and advocate for clients
Faith and Practice	Social workers facilitate transitions and endings
	Evaluation
	Social workers critically analyze, monitor, and evaluate interventions
	Social workers assess client strengths and needs using a bio-psycho-social-spiritual model

www.crossroadshospice.com
www.seriousillness.org/dayton

Michael Sanders, Volunteer Coordinator michael.sanders@crossroadshospice.com

Marie Sutter, Psychosocial Supervisor

Services: The primary focus of hospice care is quality of life through comfort, dignity, and understanding. It encompasses the physical, psychological, and spiritual needs of terminally ill patients, while supporting the well-being of caregivers. It is an inter-disciplinary approach to care. Whether provided in the home, hospital, long-term care facility, or anywhere else, hospice is a compassionate way to deliver care and supportive services to terminally ill patients. It is provided on the basis of need, not the ability to pay.

Job Description: Students will work directly with and be supervised by an experienced and licensed social worker to provide emotional and psychological support to the patient and family. This may take place in the patient's home, nursing home, or other independent living facility. Students may attend the inter-disciplinary team meetings and participate as any staff member might in reviewing the needs of the patient and family members.

Greene Metropolitan Housing Authority – Project TOTAL

(Recommended for Junior placement)

538 N. Detroit Street
Xenia, OH 45385
937- 376-2908 Fax: 937-376-2487
www.gmha.net

Sheri McEldowney, LSW, Project TOTAL Supervisor smceldowney@gmha.net
Brenda Smallwood, Assistant Director, Student Coordinator bsmallwood@gmha.net

Services/Programs: Project TOTAL is a supportive case management program that works with individuals and families who are experiencing homelessness in Greene County. The primary goals in Project TOTAL include assisting clients to obtain and stabilize in permanent housing and to increase self-sufficiency. Project TOTAL assists clients to obtain appropriate permanent housing, which could include: Subsidized Housing, Rapid Re-Housing, or Fair Market Rent. Project TOTAL also plays a vital role in working with landlords and clients to negotiate terms of the lease or any issues that arise between the landlord and the client. Project TOTAL staff can work with clients up to one year and meet with clients at various locations, such as shelters, office, and home visits. Project TOTAL staff works with various agencies to provide collaborative services to clients. A follow-up study after three months and after six months of being discharged is completed to determine housing status and level of

self-sufficiency. The Project TOTAL Program is a department within Greene Metropolitan Housing Authority (GMHA), therefore there are other programs including Section 8, Public Housing, and Individual Development Accounts (IDA). Project TOTAL works closely with staff in various departments of GMHA. Public Housing and Section 8 work with low income individuals and families, including those who are disabled. Staff in these departments provides education, support and encouragement to assist clients in maintaining their housing. Another program at GMHA is IDA, which offers case management to families participating in an Individual Savings Plan to save money for an asset. This money is matched 2 to 1 so that savings can be used for purchasing a home, starting a small business, or post secondary education. Case management is used to assist with budgeting, goal setting, motivation, information and referral.

Job Description: Students will accompany supervisor on shelter or home visits, complete intake interviews, follow-up studies, and interact, with supervision as needed, with individuals and families who are currently experiencing homelessness to provide supportive case management. While an intern would work primarily with Project TOTAL and homeless individuals and families, an intern could also receive information and experience with the other programs within GMHA.
